Load restrictions on ND Highway 22 north of Killdeer to change

Effective immediately, load restrictions on ND Highway 22 north of Killdeer will be as follows:

- A 6-ton restriction is in effect at the Lost Bridge from Reference Point 119 to Reference Point 126
- A 7-ton restriction is in effect at the Lost Bridge from Reference Point 126 to Reference Point 141.099

All other previously implemented restrictions will remain in effect.

Traditionally, seasonal load restrictions are first implemented in the southwestern portion of the state and continue north and east as the spring season progresses. Restrictions are lifted when roadbeds have stabilized enough to carry normal traffic. Seasonal load restriction information is available by dialing 511 or by going to <http://www.dot.nd.gov/roadreport/loadlimit/loadlimitinfo.asp> where you can subscribe to load restriction email updates. Load restriction information can also be found on the NDDOT Travel Information Map at www.dot.nd.gov/travel-info.
